 [linkedin-Heshani Thennakoon](#)

"I am a motivated software Engineering graduate with strong foundations in object-oriented programming, web and mobile application development, databases, and DevOps practices. Experienced in building full-stack applications, working with modern frameworks, and collaborating on team-based software projects. Passionate about writing clean, scalable, and maintainable code."

SKILLS SUMMARY

Languages	C++, C#, HTML, Java, JavaScript, Python, PHP, TypeScript
Databases	MySQL, PostgreSQL, Microsoft SQL Server, MongoDB, Firebase Realtime DB
Machine Learning	Numpy, OpenCV, NLP, Pandas, TensorFlow, Python (for ML)
Frameworks/Tools	.NET, Angular, MERN, Node.js, EF, Docker, Jenkins, AWS (S3), Github, Figma
Concepts	OOP, Clean Architecture, MVC, Microservices (basic), Agile/Scrum
Soft Skills	Critical Thinking, Problem Solving, Effective Communication, Time Management

EDUCATION

BSc (Hons) in Computer Engineering | Faculty of Engineering | University of Ruhuna | 2021 – 2026
1A & 2B's | GCE AL | Ku/Maliyadeva Balika M.V | 2016 – 2019
6A's & 3B's | GCE OL | Ku/Maliyadeva Balika M.V | 2014 – 2015

WORK EXPERIENCE

Software Engineer Intern - LightWay IT (Pvt) Ltd | June 2024 – February 2025

- Worked on INSIEM and ALUMO Web and API projects using ASP.NET Core (.NET 6), Angular and EF.
 - Developed REST APIs, integrated frontend with backend, and manages databases.
 - Integrated authentication, validation, and role-based access.
 - Participated in debugging, testing and deployment support.
 - Collaborated in Agile environment using GitLab.
-

PROJECTS

Tourism Website (Individual, Client-based) – [Fantasy Personal Tours](#)

- Developed and deployed a responsive tourism website with SEO and sitemap integration.
- Hosted on InfinityFree, improving online visibility and user engagement.

Tech – PHP, HTML, CSS, JavaScript

AI Classroom Engagement Monitoring System (Group / Final Year Project) – [Link](#)

- Built an AI-based system to monitor student engagement, emotions, and drowsiness in real time.
- Developed frontend pages (signup, login, dashboard, alerts, reports).
- Implemented face detection login using OpenCV and Python with auto email retrieval.
- Managed both Firebase Real-time database and MongoDB.
- Integrated real-time alerts and engagement insights for teachers.

Tech – HTML/CSS/JavaScript, Python, OpenCV/NumPy/CNN, Firebase Realtime DB/MongoDB

Travel Website CRM with Chatbot Integration (Individual, Client-based) – [GH Travelers](#)

- Developed and deployed a CRM-enabled website with trip search, booking, and user management.
- Integrated a chatbot for destination recommendations, booking assistance, and support.
- Implemented user roles, lead tracking, ticket management in CRM.
- Designed responsive UI and managed backend logic using PHP.

Tech – PHP, HTML, CSS, JavaScript, CRM concepts, AI Chatbot Integration

Face Detection & Recognition System (Individual) - [Link](#)

- Built a real-time face detection and recognition system using webcam input.
- Implemented face encoding and integrated Firebase for data storage and matching.

Tech – Python, C, C++, OpenCV, Firebase

ERP System – Student Portal (Group / Frontend & UI/UX)

- Developed student portal features including module registration, results, requests, and feedback.
- Designed user-friendly UI using Blazor and collaborated in a team environment.

Tech – C#, Blazor, PostgreSQL

Health Care Mobile Application (Individual / Mobile App Developer) - [Link](#)

- Developed a user-friendly healthcare mobile application using the Flutter Framework.
- Implemented user registration, symptom checker, and doctor selection features.
- Design smooth UI and improve patient experience.

Tech – Flutter, Dart, C++, HTML

Book Stall Reservation System (Group / Full-Stack Web Application) - [Link](#)

- Developed a full-stack reservation management system for book stalls at exhibitions.
- Implemented user authentication, reservation creation, confirmation, and deletion.
- Generated QR codes for confirmed reservations and sent them via email notifications.
- Built RESTful APIs and a responsive frontend for managing and viewing reservations.

Tech – Node.js, Express, TypeScript, React, MongoDB, JWT, Nodemailer

EXTRA-CURRICULAR ACTIVITIES

- | | |
|--|-------------|
| • Captain of the University Carrom Team | 2025 |
| Quarter Finalists Sri Lanka University Games XV 2025 | |
| • Vice-Captain of the University Carrom Team | 2024 |
| Quarter Finalists University Matches 2024 | |
| • Editor IET on University of Ruhuna | 2025 |
| • Annual Technical Conference Coordinator IET on University of Ruhuna | 2024 |
| • Member of University Carrom Team | 2021 – 2025 |
| Participate the University Matches 2021-2025 | |
| • Participate in EMINENCE 4.0 | 2024 |
| Organized by Women in Engineering (WIE), IEEE student branch, University of Ruhuna | |
